

A colorful multiplication equation is displayed in the center of the page. The number '9' is yellow, the multiplication sign 'x' is grey, the number '2' is purple, the equals sign '=' is light blue, and the number '18' is green. All numbers and symbols have a thick black outline. Six small pink flowers with five petals are scattered around the equation: three above and three below.

$$9 \times 2 = 18$$
