$$6 \times 2 = 12$$

The equation is rendered in a highly decorative, bubbly font. The number '6' is filled with a dark purple pattern of small white dots. The multiplication sign 'x' is a solid bright yellow. The number '2' is filled with a pink pattern of small white circles. The equals sign '=' is filled with a red pattern of small white circles. The number '12' is filled with a purple pattern of small white circles, with a green alien character integrated into the '1'.
