The image shows a multiplication problem, 10 x 3 = 30, centered on a dark grey background with a repeating pattern of small, light grey circles. The numbers are rendered in a bold, rounded, cartoonish font. The number '10' is yellow, the multiplication sign 'x' is brown, the number '3' is light blue, the equals sign '=' is brown, and the number '30' is green. All characters have a thick black outline.
$$10 \times 3 = 30$$
